

AMISHA KUMARI

SOFTWARE DEVELOPER | FULL STACK DEVELOPER

Java | Data Structures & Algorithms | MERN Stack | Python | AI/ML

+91 8873252836 | amishakumaripatna123@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) Ajmer, Rajasthan, India

EDUCATION

Government Mahila Engineering College, Ajmer, Rajasthan

Bachelor of Technology in Computer Science & Engineering

August 2023 – Present

CGPA: 8.78/10

EXPERIENCE

AI Automation and Intelligence Solutions Intern – IBM SkillsBuild | Remote

July 2026 – Aug 2026

Tech Stack: Python, Machine Learning, AI, Git, GitHub

- Developed AI-driven automation solutions using Python and Machine Learning techniques
- Applied data preprocessing, ML algorithms, and model evaluation to build AI-powered applications.
- Used Git and GitHub for version control and collaborative development.

Full Stack Development Intern- Code Alpha | Remote

May 2026 - June 2026

Tech Stack: MERN Stack, Git, GitHub

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js, including responsive UI, REST APIs, authentication, and database integration.
- Worked on debugging, testing, deployment, and source-code management using Git and GitHub.
- Applied software engineering practices to build scalable and maintainable web applications.

Software Development Intern- Sysslan IT Solutions | Remote

April 2026 – May 2026

Tech Stack: MERN Stack, Git, GitHub

- Developed MERN-based application modules **with a focus on** frontend UI and backend API integration.
- Assisted in debugging, testing, and feature implementation using Git and GitHub workflows.
- Participated in documentation and SDLC activities while collaborating with the development team.

Software Development Trainee-Web2Ease Private Limited | Remote

June 2025 – July 2025

Tech Stack: HTML, CSS, JavaScript, Node.js

- Developed frontend and backend modules using HTML, CSS, JavaScript, and Node.js.
- Integrated APIs and performed debugging to improve application functionality.
- Collaborated in a real-world software development workflow and gained practical full-stack development experience.

PROJECTS

AI-Powered Finance & Expense Management System (ExpenseMind AI) | MERN, AI/ML

In Progress

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Python, Machine Learning, REST API

- Developed a full-stack AI-powered finance platform for expense tracking, budgeting, financial analytics, forecasting, and financial health monitoring.
- Implemented hybrid anomaly detection, AI recommendation engine, expense forecasting, and anomaly-aware forecasting to generate data-driven financial insights.
- Conducted ML research experiments including anomaly evaluation, threshold sensitivity, forecasting validation, comparative analysis, and research visualization.

SmartHire – AI-Powered Recruitment Platform (Major Project) | MERN Stack

July 2026 – Sep 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST API, Python, AI, Chart.js, PDF.js

[GitHubRepo](#)

- Designed and developed an AI-powered recruitment platform using the MERN stack with JWT authentication, role-based access control, resume analysis, and recruiter dashboards.
- Built Candidate and Recruiter modules with resume upload, ATS scoring, job recommendations, application tracking, and application management.
- Developed responsive React.js interfaces and REST APIs with MongoDB integration, profile management, analytics, resume parsing, and candidate-job matching.

AI-Based Farmer Predictive System | IBM SkillsBuild

June 2026 – July 2026

Tech Stack: Python, Machine Learning, HTML, CSS, JavaScript

[GitHubRepo](#)

- Developed an AI-powered crop recommendation system based on temperature, rainfall, and soil type.
- Integrated a machine learning model with a responsive web interface to generate crop recommendations and sustainability scores.
- Performed data preprocessing, feature engineering, and model optimization to improve prediction accuracy.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, C
- Data Structures & Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems
- Frontend:** HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap
- Backend:** Node.js, Express.js, REST APIs, JWT
- Database:** MongoDB, MySQL
- Machine Learning:** Scikit-Learn, Pandas, NumPy
- Tools:** Git, GitHub, VS Code, Sublime Text

ACHIEVEMENTS

- 2024:** Qualified for the **Internal Round of Smart India Hackathon (SIH 2024)** for developing an ML-based prediction system.
- 2025:** Qualified for **Stage 1 of AlgoUniversity Technology Fellowship (ATF 2025)** and ranked in the **Top 8% nationwide among 250,000+ participants**.
- 2026:** Successfully completed **Elite Coders Summer of Code (ECSoc 2026)** as a **Verified Contributor**, gaining hands-on open-source development and collaboration experience.
