

AMISHA KUMARI

SOFTWARE DEVELOPER | FULL STACK WEB DEVELOPER

Java | Data Structures & Algorithms | Software Engineering | MERN Stack | Python

+91 8873252836 | amishakumaripatna123@gmail.com | [LinkedIn](#) | [Github](#) | Ajmer, Rajasthan, India

EDUCATION

Government Mahila Engineering College, Ajmer, Rajasthan

Bachelor of Technology in Computer Science & Engineering

August 2023 – Present

CGPA: 8.6/10

EXPERIENCE

AI Automation and Intelligence Solutions Intern – IBM SkillsBuild | Remote

July 2026 - Present

Tech Stack: Python, Machine Learning, AI, Git, GitHub

- Developed AI-driven automation solutions using Python and Machine Learning.
- Built AI-powered applications by applying machine learning algorithms, data preprocessing, and model evaluation techniques.
- Followed software development best practices and collaborated using Git & GitHub.

Full Stack Development Intern- Code Alpha | Remote

May 2026 - June 2026

Tech Stack: MERN Stack, Git, GitHub

- Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js), including responsive frontend interfaces, backend APIs, authentication, and database integration.
- Collaborated on real-world project development, debugging, testing, and deployment while managing source code and workflows using Git and GitHub.
- Enhanced practical expertise in full-stack development and applied software engineering best practices to build scalable and efficient applications.

Software Development Intern- Sysslan IT Solutions | Remote

April 2026 – May 2026

Tech Stack: MERN Stack, Git, GitHub

- Developed and contributed to MERN stack-based web application modules, focusing on frontend UI development and backend API integration.
- Assisted in debugging, testing, feature implementation & collaborated with team members using Git & GitHub workflows.
- Participated in project documentation and SDLC processes while strengthening problem-solving, teamwork, and practical software development skills.

Software Development Trainee-Web2Ease Private Limited | Remote

June 2025 – July 2025

Tech Stack: HTML, CSS, JavaScript, Node.js

- Worked on front-end and backend modules using HTML, CSS, JavaScript, and Node.js; improved debugging and API integration skills during a software development internship.
- Integrated APIs and improved debugging efficiency.
- Gained hands-on experience in full-stack development workflow & collaborated in a real-world development environment.

PROJECTS

SmartHire – AI-Powered Recruitment Platform (Major Project) | MERN Stack

July 2026 - Present

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST API, Python, AI, Chart.js, PDF.js

[GitHubRepo](#)

- Designed and developed a scalable AI-powered recruitment platform using the MERN stack with JWT authentication, role-based access control, AI resume analysis, and recruiter dashboards.
- Built Candidate and Recruiter modules including resume upload, AI resume analysis, ATS score, job recommendation, application tracking, and application management.
- Developed responsive React.js interfaces and REST APIs with MongoDB integration, profile management, hiring dashboard, analytics, and reusable components.
- Implemented AI-powered resume parsing, intelligent candidate-job matching, recruiter analytics, and hiring automation to streamline the end-to-end recruitment process..

AI-Based Farmer Predictive System | IBM SkillsBuild

June 2026 – July 2026

Tech Stack: Python, Machine Learning, HTML, CSS, JavaScript

[GitHubRepo](#)

- Developed an AI-powered crop recommendation system that predicts suitable crops based on temperature, rainfall, and soil type
- Integrated a machine learning model with a responsive web interface to generate crop recommendations and sustainability scores.
- Performed data preprocessing, feature engineering, and model optimization to improve prediction accuracy.

E-Commerce Store Website | MERN Stack

May 2026 - June 2026

Tech Stack: MongoDB, Express.js, React.js, Node.js, REST API

[GitHubRepo](#)

- Developed a full-stack e-commerce web application with user authentication, product management, shopping cart, and CRUD operations
- Designed a responsive React.js interface and integrated REST APIs with MongoDB for efficient data management and seamless user experience.
- Implemented JWT authentication, CRUD operations, and REST APIs for secure user and product management.

TECHNICAL SKILLS

- Programming Languages:** Java (DSA), Python, C Programming
- Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems (Basics)
- Frontend:** HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap
- Database technologies:** MongoDB, MySQL
- Machine Learning:** Scikit-Learn, Pandas, NumPy
- Tools:** Git, GitHub, VS Code, Sublime Text

ACHIEVEMENTS

- Qualified for the Internal Round of **Smart India Hackathon (SIH) 2024** for developing an ML-based prediction system
- Achieved **Top 8% rank in AlgoUniversity Technology Fellowship (ATF 2025)** among 250,000+ participants nationwide
- Secured a **Top 4 rank on the GeeksforGeeks** leaderboard during an inter-college coding event.
